Galerie

—from the November 2018 article "Galerie Hosts a Private Viewing of the Metropolitan Museum of Art's Blockbuster Jewelry Exhibition; Art and design luminaries get a first look at "Jewelry: The Body Transformed" and share their favorite pieces"

Andrea Glimcher, Hyphen

“I was drawn to the jewelry from the Bronze Age. The expert handling of the copper alloy combined with such a simple and effective design is a great and appealing marriage of material and skill. There is something so beautiful about what people choose to adorn themselves with—for some it’s decoration, for others it’s ritual. It’s fascinating to read these signs and symbols throughout history.”
